PROFESSIONAL SUMMARY

Computer Science graduate with hands-on experience in Python development, Artificial Intelligence, Machine Learning, and Full-Stack Web Development. Skilled in building intelligent applications, data-driven solutions, and AI-powered systems using modern frameworks and development tools. Experienced in developing machine learning models, integrating AI services, and deploying scalable web applications. Strong analytical and problem-solving abilities with a passion for leveraging AI and software engineering to create impactful real-world solutions. Seeking opportunities as a Python Developer, AI Engineer, Machine Learning Engineer, or Software Developer.

EDUCATION

Sri Venkateswara College of Engineering and Technology, Etcherla, Srikakulam

Bachelor of Technology in Computer Science and Engineering

2022 – 2026

SGPA: 8.0

Sri Chaitanya Junior College

Board of Intermediate Education, Andhra Pradesh (MPC)

2022

Percentage: 73%

Bhashyam High School, Srikakulam

Board of Secondary School Education

2020

CGPA: 10

TECHNICAL SKILLS

Programming Languages: Python, JavaScript

Frameworks & Libraries: ReactJS , Flask, Pandas, Scikit-Learn , TensorFlow , PyTorch , NumPy

AI / ML Concepts: Machine Learning, Federated Learning, Data Analysis, Prompt Engineering, AI Application Development

Tools & Platforms: Codex by OpenAI, Google Colab, VS Code, Lovable, GitHub , Vercel

INTERNSHIP EXPERIENCE

Seak Innovations Private Limited, Hyderabad

Data Science with AI Intern

February 2026 - June 2026

- Developed professional dashboards and analytical solutions using Machine Learning techniques.
- Improved model efficiency by up to 70% through data preprocessing, feature optimization, and performance tuning.
- Identified anomalies and hidden patterns in datasets to support better business decision-making.
- Worked on real-world AI and data-driven projects involving predictive analytics.

Averixis Solutions, Bengaluru

Web Development Intern (MERN Stack with AI)

October 2025 - December 2025

- Developed and deployed startup-focused web applications using modern full-stack technologies.
- Built an LMS platform enabling 50+ students to access study materials, learning roadmaps, and curated resources.
- Integrated AI-assisted development workflows to improve productivity and application quality.
- Generated revenue through personalized learning programs and mentorship-based educational services.

PROJECTS

HealthTrust-FL: Secure and Compliant Federated Learning

Python, Blockchain, Federated Learning

- Developed a secure healthcare data management system integrating Machine Learning and Blockchain technologies.
- Implemented predictive analytics models for disease detection and healthcare risk assessment. Achieved 80% Model Accuracy on disease detection
- Enhanced data privacy through federated learning concepts and decentralized storage mechanisms.
- Ensured healthcare data integrity using blockchain-based security architecture.

PantryChef AI

NextJS, OpenRouter API, Vercel

- Developed an AI-powered recipe generation platform based on ingredients available in a user's kitchen.
- Integrated OpenRouter API to generate personalized recipes and step-by-step cooking instructions.
- Designed a responsive user experience using NextJS and deployed the application on Vercel.
- Improved recipe discovery time by 40%

Karna Solutions

Lovable, ReactJS, Express, Lovable Cloud

- Designed and developed the official startup website showcasing mentorship programs, training services, and educational resources.
- Implemented responsive landing pages, inquiry systems, and student engagement modules.
- Built scalable frontend components and backend integrations for seamless user experience.
- Enabled students to access career guidance, learning resources, and personalized mentorship services.

EduFun LMS

Lovable, ReactJS, Express, Lovable Cloud

- Developed a learning management system to organize and deliver higher-education resources efficiently.
- Built responsive user interfaces and modular backend components for scalability. Served 20+ Active Users for content accessing.
- Improved accessibility of learning materials through a centralized platform.

CERTIFICATIONS

- Certified Python Developer – HackerRank
- Certified JavaScript Developer – HackerRank

ACHIEVEMENTS & LEADERSHIP

- Founder, Mentor, and Freelancer at Karna Solutions.
- Achieved State Rank 296 in AP-PGECET.
- Conducted programming training sessions for students in C and Python.
- Developed and deployed multiple AI-powered and full-stack web applications.
- Successfully mentored students in academics and emerging technologies.

HACKATHONS

- 2nd Prize – GEN-AI Hackathon conducted by ZentroByte Solutions, Srikakulam.
- Participant – GenAIVersity 48-Hour Hackathon conducted by JNTU-GV.
